

Thank you all for coming along to run in Billericay tonight. The weather was nice for running - not too cold, and it stayed dry - just beginning to rain when I got home!

Thanks to Dale for setting an excellent course with a nice spread of points throughout the distinct "areas" of the map. There was a slight issue with the placement of control 29 on MapRun, so I have credited everyone who went near. There was also an issue with paths around no.32 where the map seemed to show them meeting, but they obviously didn't - sorry if like me you got caught up here and had to take a long detour.

There were some nice Christmas decorations to spot on your way round, and the high street had a festive feel too, with many of the shops being decorated.

There was a slight issue with the time penalties being different on the map and app from the written details, so I have taken the most favourable of the two, and only deducted 10 points per min, rather than the 30 as stated on the map. I have corrected all the MapRun scores for this.

Details of the scoring can be found at this [link](#).

Details of the all the results and future fixtures in the series can be found on the series [homepage](#).

If you missed the event tonight, but want to run it on Anytime catchup, details are on the series webpage, including maps and instructions. You will still score points for the league (if you run in the next 2 weeks), subject to an Anytime penalty of 6 mins (long) or 4 mins (short).

Next up is [Colchester Shrub End](#) in a couple of weeks.

We have one item of lost property from tonight - a Kingtop headtorch, so if it is yours then let me know (streeto@orienteering-havoc.co.uk) and I will arrange to return it to you.
