

## HAVOC ORIENTEERING CLUB – MAPRUN – Shenfield & Hutton Course

**What Is It?** This is the first of our Score Street O events, hosted on the MapRunF App on your mobile phone/Garmin watch. All of these events are going to be of the same format – you have one hour to find as many controls as possible and get back to the start/finish.

**When Can I Do It?** The activity is open from now until 31st January 2021 for scoring in the league, when final results will be collated. (Please note – this is not an organised activity so you can do it whenever you like.) The activity will remain available after this date, but scores will not count for the league.

**Who Can Do It?** This activity is free and open to anyone, although all competitors take part at their own risk. This activity is not an organised event or activity, so you are not covered by British Orienteering's insurance. You do the activity as an individual for personal training and you are responsible for both your own safety and the safety of others around you.

**You must adhere to the latest [Government guidance](#) and the [British Orienteering guidance](#), which includes maintaining social distancing and respecting others. Slow down and give way to others where necessary to abide by the guidance.**

**Where Is It?** The activity starts and finishes on Hutton Poplars Green. Parking is available on the boundary Road to the green – Bannister Drive. This road has restricted parking Monday-Friday 10am-11am, but is free at other times. It can get busy at school pick up and drop off times.

<b>Location</b>	Hutton Poplars Green
<b>Address</b>	Bannister Drive, Shenfield, Essex CM13 1YX
<b>Latitude/longitude</b>	51°37'58.8"N 0°20'28.8"E
<b>Map</b>	<a href="#">Google Maps</a>

### How Does It Work?

1. Download the **Shenfield and Hutton** map to use for navigation.
2. If you haven't already, install MapRunF on your phone, and find the event under UK > Essex > Shenfield and Hutton. If you have a Garmin watch, you don't need to take your phone on the run if [you install MapRunG](#).
3. When ready, press 'Go To Start' and the App will automatically detect when you're at the start, "beep" and start your time. Each time you reach a control, the App will 'beep' and/or buzz to indicate successful passage. Get as many points as you can within 60 minutes and return to base, where the App will automatically Finish and upload your score. Done!

**Scoring:** Points will be awarded according to the first digit of each control number (so controls 10, 11 etc. are worth 10 points; 20, 21 etc. are worth 20 points and so on.) There is a 10 point per minute penalty for lateness.

**GPS accuracy:** We have tested all the controls for GPS-worthiness (although you may have to wait a few seconds for your GPS track to catch up). If, despite being in the right place, a control refuses to register, there is a feature on the app called HITMO which you can use to record the visit after you have finished. These will be checked against the GPS track of your run.

**Results:** these will be available in January, after the closing date for scoring, on the 31<sup>st</sup>

**Questions:** please email [maprun@orientering-havoc.co.uk](mailto:maprun@orientering-havoc.co.uk)

**Problems identified:** please also email [maprun@orientering-havoc.co.uk](mailto:maprun@orientering-havoc.co.uk)

I do hope that you enjoy this activity. Any feedback would be welcome to the above email.

Enjoy your run!
