PLANNER'S COMMENTS

Everyone seemed to enjoy this opportunity to visit parts of Warley and Brentwood that they would not otherwise see. The very warm, sunny evening weather was a bonus, certainly for the planner/organiser. Some people found the lack of contours on the street map a bit of a problem: fine going downhill but then it was an uphill climb coming back however, the map appears to show the area as being "flat"!

It may be worth adding in the several sections of woodland that exist in the area then the enhanced map could be used for an urban event. Does anyone fancy a nice little project?
